If no, please answer the following questions?

- **If you do not have a Child Obesity clinic, how do you support this pathway, e.g. where are patients referred to?**

There is no obesity pathway for young people except for those meet the inclusion criteria for the nationally run Complication of Excessive Weight Gain (CEW) clinics.

There is a business case for an obesity clinic for MK young people being brought to the ICB over the summer.

Currently we do not accept (and nor do the dietitians) referrals for children who are overweight unless there are co-morbidities associated with their obesity (e.g. insulin resistance, Type 2 diabetes, Musculo-skeletal problems, liver disease, sleep problems, hypertension)
