560 - FOI - 4934 - Colorectal cancer chemotherapy

Questions	Performance & Info comments	Answer
-----------	-----------------------------	--------

<p>1. Within your health trust how many patients have been treated in the past 6 months with the following agent for colorectal cancer [CRC];</p>	<p>The data provided is from February 2019 - July 2019.</p>	
<p>Aflibercept</p>	<p>We have provided the number of patients treated using only this chemotherapy drug</p>	<p>0</p>
<p>Bevacizumab</p>	<p>We have provided the number of patients treated using only this chemotherapy drug</p>	<p>0</p>
<p>Capecitabine</p>	<p>We have provided the number of patients treated using only this chemotherapy drug</p>	<p>6</p>
<p>CAPIRI</p>	<p>We have provided the number of patients treated using only this chemotherapy combination drugs</p>	<p>0</p>
<p>CAPOX</p>	<p>We have provided the number of patients treated using only this chemotherapy combination drugs</p>	<p>34</p>
<p>Cetuximab not in combination with FOLFIRI or FOLFOX</p>	<p>We have provided the number of patients treated using only this chemotherapy drug</p>	<p>17</p>
<p>Cetuximab in combination with FOLFIRI</p>	<p>We have provided the number of patients treated using only this chemotherapy combination drugs</p>	<p>1</p>

Cetuximab in combination with FOLFOX	We have provided the number of patients treated using only this chemotherapy combination drugs	0
Irinotecan	We have provided the number of patients treated using only this chemotherapy drug	0
FOLFIRI	We have provided the number of patients treated using only this chemotherapy combination drugs	25
FOLFOX	We have provided the number of patients treated using only this chemotherapy combination drugs	26
Oxaliplatin	We have provided the number of patients treated using only this chemotherapy drug	0
Panitumumab not in combination with FOLFIRI or FOLFOX	We have provided the number of patients treated using only this chemotherapy drug	0
Panitumumab in combination with FOLFIRI	We have provided the number of patients treated using only this chemotherapy combination drugs	0
Panitumumab in combination with FOLFOX	We have provided the number of patients treated using only this chemotherapy combination drugs	0
Nivolumab	We have provided the number of patients treated using only this chemotherapy drug	0
Raltitrexed	We have provided the number of patients treated using only this chemotherapy drug	0
Ramucirumab	We have provided the number of patients treated using only this chemotherapy drug	0

Regorafenib	We have provided the number of patients treated using only this chemotherapy drug	0
Sorafenib	We have provided the number of patients treated using only this chemotherapy drug	0
5FU only	We have provided the number of patients treated using only this chemotherapy drug	1
Tegafur Uracil + 5FU	We have provided the number of patients treated using only this chemotherapy combination drugs	0
Trifluridine–tipiracil	We have provided the number of patients treated using only this chemotherapy combination drugs	1
XELOX	We have provided the number of patients treated using only this chemotherapy combination drugs	0
Other	We have provided the number of patients treated with all other chemotherapy other than the above listed drugs/combinations	0
