No

Do you outsource BAU testing?

No

Do you test core functions (not just key applications) before releasing your regular Operating System patches and updates to the ICT estate?

We regularly test new and upgraded systems

Do you test your new End User Devices and peripherals before deploying to the ICT estate?

We have a standard equipment, but we do test when deploying new OS etc

Would you consider using an independent Testing as a Service(TaaS) option? If not, please explain why.

Unlikely as we have this function in house.

As a teaching hospital, we conduct education and research to improve healthcare for our patients. During your visit students may be involved in your care, or you may be asked to participate in a clinical trial. Please speak to your doctor or nurse if you have any concerns.
