Weighting of ranked qualitative criteria

Your selected criteria will be shown in rank order. Your most important criteria (usually rank number 1) should be weighted at 100. Other criteria should be weighted in relation to this criteria. It is possible to weight more than 1 criteria to the same value i.e. criteria 1, 2, and 3 at 100; 4 at 82 and 5 at 70 perhaps.

Major and Minor Works Schemes at Milton Keynes University Hospital NHS Foundation Trust

k	Qualitative selection criteria	Weighting
1	Cost Management	100
2	Delivery confidence	80
3	Strength of team and leader	70
4	Relevant experience	60
5	Client satisfaction	50
