*Request under Freedom of Information Act 2000*

Thank you for your request for information which we received on 12 October 2018.

I am pleased to confirm the following.

**Please inform me as to how many nurses work throughout the whole of Milton Keynes Hospital at one time, and how many nurses are required to be on a ward at a time.**

Please see attached.

The Trust currently has 1004 Registered Nurses and Midwives in the hospital.
All the wards have different staffing requirements due to bed numbers and Acuity but a standard ward works on 4 Registered nurses and 3 Health Care Assistants to 28 beds.

**Additionally, I would like to know how many patients are currently staying overnight on a ward at Milton Keynes Hospital.**

Occupancy varies from ward to ward but on average the Trust is running at 96%.
