

FOI 4197 - Asthma Patients

1. In your trust, in the past 3 months [latest 3 months available], how many asthma patients aged 18 and over have been treated?	2. How many paediatric asthma treated patients [aged 6-17] have been treated?	3. How many severe asthmatic patients [BTS guidelines, step 4 or 5] have been treated?	4. How many severe allergic asthma patients [severe persistent confirmed allergic IgE-mediated asthma OR severe persistent confirmed allergic eosinophilic asthma] have been treated with: - Omalizumab [Xolair] - Mepolizumab [Nucala] - Reslizumab [Cinqaero] - Benralizumab [Fasenra] - Other [Please state]	5. How many paediatric severe asthma patients treated with Xolair/omalizumab?
Notes/Comments				
<p>Included are all inpatients discharged from MKUH between the 1st May 2018 and the 31st July 2018, where the patient was aged 18 or over on the day of admission, and any of the following ICD10 Diagnosis Codes were coded to the inpatient spell in the primary diagnosis position:</p> <ul style="list-style-type: none"> - <i>J450: Predominantly allergic asthma</i> - <i>J459: Asthma, unspecified</i> - <i>J46X: Status asthmaticus</i> - <i>J82X: Pulmonary eosinophilia, not elsewhere classified</i> <p>Any asthma patients treated in outpatients are not included in this figure, as MKUH does not record diagnoses against outpatient attendances and is therefore unable to identify these patients.</p>	<p>Included are all inpatients discharged from MKUH between the 1st May 2018 and the 31st July 2018, where the patient was aged between 6 and 17 (inclusive) on the day of admission, and any of the following ICD10 Diagnosis Codes were coded to the inpatient spell in the primary diagnosis position:</p> <ul style="list-style-type: none"> - <i>J450: Predominantly allergic asthma</i> - <i>J459: Asthma, unspecified</i> - <i>J46X: Status asthmaticus</i> - <i>J82X: Pulmonary eosinophilia, not elsewhere classified</i> <p>Any asthma patients treated in outpatients are not included in this figure, as MKUH does not record diagnoses against outpatient attendances and is therefore unable to identify these patients.</p>	<p>Included are all inpatients discharged from MKUH between the 1st May 2017 and the 31st July 2018, where the following ICD10 Diagnosis Code was coded to the inpatient spell in the primary diagnosis position:</p> <ul style="list-style-type: none"> - <i>J46X: Status asthmaticus</i> <p>Any asthma patients treated in outpatients are not included in this figure, as MKUH does not record diagnoses against outpatient attendances and is therefore unable to identify these patients.</p>	<p>We are unable to answer these questions. The administration of specific high-cost drugs is not recorded in a central database. The administration of specific high-cost drugs is not recorded in a central database recorded in the patient's clinical notes, however to obtain this information would require patient permission and consent.</p>
