16-8-18	4212	<p>I would like to request, under the freedom of information act, as much of the following as is possible to provide within the cost(£450) and time(18 hours) limits imposed by the act(if you wish to allocate more resources to fulfilling this request you should feel free to do so).</p> <p>This request refers to a time period of the second quarter of 2018, or the months April, May and June of 2018.</p> <p>Please work downward through the following requests until the limits are reached:</p> <ol style="list-style-type: none"> 1. Documents describing procedures for collaboration with immigration enforcement, specifically including policy concerning to but not limited to the following: <ol style="list-style-type: none"> a. Responses to requests for patient information by immigration enforcement. If this is covered by general policy concerning information shared with law enforcement, please provide this in addition. b. Information routinely shared with immigration enforcement (as differentiated from information shared with the home office in general for the purposes of charging for secondary care) For example, this might include a policy of reporting suspicious patients or patients who do not have uk citizenship or indefinite leave to remain. If this is covered by general policy concerning information shared with law enforcement, please provide this in addition. c. Policy surrounding the presence of immigration enforcement officers on hospital grounds. If this is covered by general policy covering the presence of law enforcement officers, please provide this in addition. 1. The number of incidences of patient information being shared with immigration enforcement, and the number that occurred within the time period specified above. If the cost of a time-unlimited search is likely to exceed the limits imposed by the act, please limit it to incidents since 2016, and if that is likely to exceed the cost limits, solely provide the incidents in the time period above. Please also provide, if known(both for the period specified above and in total): <ol style="list-style-type: none"> a. The number of these incidents in which the patient was in primary care. 	

		<p>b. The number of incidents where this information resulted in an arrest.</p> <p>c. The number of incidents where this information resulted in a deportation.</p> <p>d. The number of incidents where this information resulted in proceedings to deport, but where the deportation has not been completed. (or, if numbers of deportations are not known, total numbers of proceedings initiated)</p> <p>e. The number of known incidents involving the presence of immigration enforcement officers on hospital grounds for the purposes of immigration enforcement(so excluding, for example, officers receiving medical treatment).</p> <p>1. Any and all written communication with immigration enforcement, and any notes, transcripts, minutes or summaries of meetings or conversations with immigration enforcement offices, redacted as appropriate.</p> <p>It is worth noting that this request differentiates between the home office in general and immigration enforcement(a law enforcement command within the home office), and does not relate to interactions your trust has with the home office relating to, for example, charging for secondary care, unless immigration enforcement becomes subsequently involved.</p> <p>I can confirm Milton Keynes University Hospital have had no dealings with immigration, neither do we have any policy relating to immigration.</p>

What is your position on the safety thermometer for CAUTI?</p> <p>This information can be obtained from the NHSI Safety thermometer website www.safetythermometer.nhs.uk</p> <p>3. What 3 main actions have the trust deployed or is planning to deploy to reduce nosocomial CAUTIs?</p> <p>In relationship to reducing nosocomial (hospital) acquired, the Trust support hydration through frequent individual patient assessment. Milton Keynes University Hospital was the instigator of the Red Jug programme that is practiced nationwide. Procedures that require the patient to be nil by mouth have a pathway that supports the patient remaining hydrated. The need for insertion of urinary catheter, the introduction and post management are undertaken with asepsis. Milton Keynes University Hospital works with the local CCG and GP`s to reduce the incidence of all UTI not just the CAUTI`s through patient awareness, prudence around antimicrobial prescription and best practice catheter care.</p> <p>4. 22-8-18	4220	<p>1) Whether the Trust currently is, or has been in the past 12 months, engaged in a contract or written agreement with Bounty UK Limited. If the Trust is currently engaged in a contract please attach a copy of it, making necessary redactions in order to comply with the Act. Please provide the date that the contract began and/ or ended. Please provide an overview of the terms of payment. (i.e. per mother visited / per photo pack purchased).</p> <p>The Trust has been engaged with Bounty UK Ltd and is currently undergoing renewal of the contract.</p>	

2) Please confirm how much money has been paid to the Trust by Bounty UK Limited in the past 12 months and how many new mothers are recorded as having been approached by Bounty representatives (if held).

The Trust received £5,550.68 from Bounty UK Ltd for the period September 2017 to August 2018. The Trust does not hold any details on how many mothers were approached.

3) Please provide details of the policies the Trust has in place with regards to protecting new mothers (i.e are representatives allowed on any ward at any time, or do they have restricted access? Are mothers given the option to opt out of being visited?)

The Trust has no specific contract regarding Bounty. Bounty does have access to the ward at any time but this is normally in standard working hours. They have ID badges to identify their role and gain access to the maternity wards. Mothers do have the option to not engage with Bounty if that is their choice. Bounty representatives will present to the midwife in charge on arrival and together they would identify if there are any specific women who should not be seen.

4) Please confirm the number of complaints made to the Trust by new parents. If not time prohibitive, please provide details of the complaints.

No complaints have been received.
