

Qualitative selection criteria ranking

There are 15 standard criteria. You should select 5 criteria which are project specific (if you really need more than 5 you may select additional) and rank them as the sheet describes. Ranking (entering a number in the blue box beneath 'rank') the criteria carries that criteria through to the next tab (weighting). Any criteria not ranked will not carry through.

Major and Minor Works Schemes at Milton Keynes University Hospital NHS Foundation Trust

Category	Selection criteria	Rank
Standard criteria	<input checked="" type="checkbox"/> Client satisfaction Local note: Client requires a track record of delivery of affordable projects to time and budget	5
	<input type="checkbox"/> Health & safety Local note: Enter Narrative here	
	<input checked="" type="checkbox"/> Strength of team and leader Local note: Client requires details of proposed site teams and design coordinator/manager and how the design development will be managed to deliver an affordable project within the agreed cost plan	3
	<input type="checkbox"/> Local note: Enter Narrative here	
	<input type="checkbox"/> Working with your supply chain Local note: Enter Narrative here	
	<input checked="" type="checkbox"/> Relevant experience Local note: The Client requires detail of projects of a similar size and nature that have successfully demonstrated value engineering in order to deliver a challenging GMP.	4
	<input checked="" type="checkbox"/> Delivery confidence Local note: The Client requires a demonstration of the ability of the PSCP to deliver the project within a time and cost that, subject to reasonable value engineering, can deliver the completion of the works on site by October 2019. The Client is committed to the approved plan and clinical content. Please demonstrate the level of confidence in the proposed cost plan.	2
	<input type="checkbox"/> Governance Local note: Enter Narrative here	
	<input type="checkbox"/> Working with us Local note: Enter Narrative here	
	<input type="checkbox"/> Care Quality and productivity Local note: Enter Narrative here	
	<input type="checkbox"/> Design and standardisation Local note: Enter Narrative here	
	<input checked="" type="checkbox"/> Cost Management Local note: The client requires production of a detailed and deliverable cost plan for the lead project to the current approved design detailed in appendix D to the HLIP. Affordability is as set out in the HLIP (£11,748m) but the client recognised this is challenging and that the project will need to be subject to value engineering once the PSDCP is appointed. The client therefore requires the Cost Plan to be both deliverable and not to exceed £13.5m, which will be subject to value engineering once the PSCP is appointed.	1
	<input type="checkbox"/> Stakeholder engagement Local note: Enter Narrative here	
	<input type="checkbox"/> BIM Local note: Enter Narrative here	
	<input type="checkbox"/> Innovation & sharing information Local note: Enter Narrative here
