<b>Grand Total</b>		<b>23</b>

Note that the table above does not include clinical workers, for which the Trust has made the following assessment:

*‘The Trust confirms that in all cases of clinical workers (including, but not limited to, locum doctors, nurses, Allied Health Professionals and all roles included within the scope of the NHSCPP Clinical Staffing Framework), supplied by:*

*your agency; any connected agency; or any other agency under a sub-contract arrangement with your agency, the condition in 61M(1)(d) is not met.*

*The Trust is of the view that in the case of all clinical temporary workers supplied by you or any other agency either:*

*(i) if the services were provided under a contract directly between the client and the worker, the worker would be regarded for income tax purposes as an employee of the client or the holder of an office under the client,*

*and/or*

*(ii) the worker is an office-holder who holds that office under the client and the services relate to the office.*

*The reasons for the Trust reaching this conclusion are one or all of the following:*

- *Clinical workers have no right of substitution.*
- *Other than medical consultants, clinical workers are subject to direction and control.*
- *Work has to be done on the Trust premises or other premises that the Trust may direct.*
- *Workers are not required to provide any significant items of personal equipment (e.g. doctor may provide a stethoscope, but the Trust does not consider this significant).*

*Clinical workers either have to operate on a work-pattern decided by the Trust or a work pattern agreed with the Trust.*
