564 - FOI - 4899 - Breast cancer chemotherapy

Questions	Performance & Info comments	Answer
-----------	-----------------------------	--------

<p>In the past 3 months, how many breast cancer patients were treated with:</p>	<p>The data provided is from May 2019 - July 2019.</p>	
<p>Abemaciclib (Verzenios) + aromatase inhibitor *</p>	<p>We have provided the number of patients treated using only this chemotherapy combination drugs</p>	<p>1</p>
<p>Abemaciclib (Verzenios) + Fulvestrant (Faslodex)</p>	<p>We have provided the number of patients treated using only this chemotherapy combination drugs</p>	<p>4</p>
<p>Alpelisib (Piqray) + Fulvestrant (Faslodex)</p>	<p>We have provided the number of patients treated using only this chemotherapy combination drugs</p>	<p>0</p>
<p>Atezolizumab (Tecentriq)**</p>	<p>We have provided the number of patients treated using only this chemotherapy drug</p>	<p>0</p>
<p>Bevacizumab (Avastin)</p>	<p>We have provided the number of patients treated using only this chemotherapy drug</p>	<p>0</p>
<p>Eribulin (Halaven)</p>	<p>We have provided the number of patients treated using only this chemotherapy drug</p>	<p>1</p>
<p>Everolimus (Afinitor) + Exemestane</p>	<p>We have provided the number of patients treated using only this chemotherapy combination drugs</p>	<p>0</p>
<p>Fulvestrant (Faslodex) as a single agent</p>	<p>We have provided the number of patients treated using only this chemotherapy combination drugs</p>	<p>6</p>
<p>Gemcitabine + paclitaxel</p>	<p>We have provided the number of patients treated using only this chemotherapy combination drugs</p>	<p>0</p>
<p>Lapatinib (Tyverb)</p>	<p>We have provided the number of patients treated using only this chemotherapy drug</p>	<p>0</p>
<p>Neratinib (Nerlynx)</p>	<p>We have provided the number of patients treated using only this chemotherapy drug</p>	<p>0</p>
<p>Olaparib (Lynparza)</p>	<p>We have provided the number of patients treated using only this chemotherapy drug</p>	<p>0</p>

Palbociclib (Ibrance) + aromatase inhibitor*	We have provided the number of patients treated using only this chemotherapy combination drugs	16
Pertuzumab (Perjeta) + trastuzumab + docetaxel	We have provided the number of patients treated using only this chemotherapy combination drugs	13
Ribociclib (Kisqali) + aromatase inhibitor*	We have provided the number of patients treated using only this chemotherapy combination drugs	0
Ribociclib (Kisqali) + Fulvestrant (Faslodex)	We have provided the number of patients treated using only this chemotherapy combination drugs	0
Talazoparib (Talzenna)	We have provided the number of patients treated using only this chemotherapy drug	0
Trastuzumab + paclitaxel	We have provided the number of patients treated using only this chemotherapy combination drugs	0
Trastuzumab as a single agent	We have provided the number of patients treated using only this chemotherapy drug	16
Trastuzumab emtansine (Kadcyla)	We have provided the number of patients treated using only this chemotherapy combination drugs	5
