

FOI - 4926 - Admitted For Self Harm

Questions	Notes	Age Group	1st January 2017 - 31st December 2017	1st January 2018 - 31st December 2018	1st January 2019 - 31st July 2019
How many children aged under 18 after presenting at A&E were admitted to your hospital due to self-harming?	Please note clinical coding can take up to 6 weeks to code patients from discharge, therefore, to capture all patients coded we have used the end of July 2019. Also, if a patient has been admitted more than once then they will be included in the data as we have counted admissions. The list of ICD-10 codes used to extract this data has been provided on the "Codes" tab.		51	55	31
Can you provide an age breakdown of admittance for each of these years? 0-5, 6-12, 13-15, 15-17.		0 -5	1	2	0
		6-12	2	1	0
		13-15	19	21	14
		15-17	29	31	17
Can you provide an injury	The category description provided is not compatible with clinical coding, therefore we are unable to				

breakdown for each of these years?
Preferably categorized: Burns,
asphyxiation, poisoning,
cuts/bruises/lacerations, overdose
etc.

categorize.
