

Request under Freedom of Information Act 2000

Thank you for your request for information which we received on 21 May 2019.

Prior to the new guidance of July 2018 we already had the relevant MDT in place, but we have ensured that attendance from all clinicians and recording of decisions are more robust

We have never used vaginally inserted mesh in the management of vaginal prolapse.

**Whilst clinicians are fully trained to do so, we have not reintroduced suburethral vaginal tapes since April 2019, due to the lack of a substantive Urogynaecologist
We have a recognised Urogynaecologist who can undertake Colposuspensions where recommended by the MDT and agreed by the patient**

We have not changed our processes or advice to patients since the April 2019 revised guidance, and continue to offer Colposuspension only for stress incontinence.

You are advised that this information is provided in accordance with the Freedom of Information Act 2000 and is for your personal use. Any re-use of this information will be subject to copyright and the Re-Use of Public Sector Information Regulations (1st July 05) and authorisation from Milton Keynes Hospital NHS Foundation Trust will be required. In the event of any re-use, the information must be reproduced accurately and not used in a misleading manner.

If you are unhappy with the information received in response to this request, please address your complaint to the Patient Affairs Office at Milton Keynes Hospital NHS Foundation Trust, Standing Way, Eaglestone, Milton Keynes MK6 5LD. If, after exhausting our internal process, you are still unhappy with the information received, you may write to the Information Commissioner's Office, Wycliffe House, Water Lane, Wilmslow, Cheshire SK9 5AF.

If you need any further assistance, please do not hesitate to contact us at the address above.

Yours sincerely,

Freedom Of Information Co-Odinator
For and on behalf of Milton Keynes Hospital NHS Foundation Trust
