

## 592 - Niamh Kelly - Maternity data

Note: Our Trust Patient Administration System (eCare) underwent an upgrade on the 18th May 2018. Post the upgrade the Trust is aware of the data quality issues with the maternity dataset and these issues are being addressed currently. Hence we have provided the data only up to April 2018.

Questions	Comments	2014	2015	2016	2017	2018 -Jan to April only
<p>• The number of live term infants born in your maternity unit for each of the following years; 2014, 2015, 2016, 2017, 2018</p>	<p>Please note that we have assumed that "live term infants" in the request as gestation period 37 weeks and above and provided the numbers accordingly for each year.</p>	3452	3761	3562	3438	1096
<p>• For the same years the total number of term infants that were stillborn, with the intrauterine death occurring either before or during labour</p>	<p>We are unable to provide this data as only still births are recorded in the data warehouse. The data warehouse does not hold the granular information as to, if the stillbirth was intrauterine death occurring either before or during labour.</p>					
<p>• For the same years the 5-minute Apgar score of &lt;6, n(rate per 10,000) for each year for your unit</p>	<p>Please note that the provided numbers are rates per 10,000 for each year.</p>	28, (75.14 per 10,000)	24, (59.55 per 10,000)	16, (41.74 per 10,000)	26, (70.63 per 10,000)	9, (74.62 per 10,000)
<p>• For the same years the Hypoxic-Ischaemic Encephalopathy rate (HIE) for moderate/severe (rate per 10,000)</p>	<p>We are unable to provide this data as this data is not available in the Trust data warehouse.</p>
