

Date of Report : 12/09/2019

533- FOI - 4900 - NSCLC and Urothelial cancer chemotherapy

Questions	Performance & Info comments	Answer
-----------	-----------------------------	--------

<p>1 - In the past 3 months, how many Squamous Cell Non-small cell lung cancer (SqNSCLC) patients were treated with:</p>	<p>The data provided is from May 2019 - July 2019.</p>	
<p>Afatinib</p>	<p>We have provided the number of patients treated using only this chemotherapy drug</p>	<p>0</p>
<p>Atezolizumab monotherapy</p>	<p>We have provided the number of patients treated using only this chemotherapy drug</p>	<p>1</p>
<p>Bevacizumab</p>	<p>We have provided the number of patients treated using only this chemotherapy drug</p>	<p>0</p>
<p>Docetaxel monotherapy</p>	<p>We have provided the number of patients treated using only this chemotherapy drug</p>	<p>1</p>
<p>Durvalumab</p>	<p>We have provided the number of patients treated using only this chemotherapy drug</p>	<p>0</p>
<p>Erlotinib</p>	<p>We have provided the number of patients treated using only this chemotherapy drug</p>	<p>0</p>
<p>Gemcitabine</p>	<p>Gemcitabine (1200) Carboplatin (CrCl) (NSCLC/SCLC); Gemcitabine Cisplatin Daypt (NSCLC)</p>	<p>4</p>
<p>Necitumumab</p>	<p>We have provided the number of patients treated using only this chemotherapy drug</p>	<p>0</p>
<p>Nivolumab</p>	<p>We have provided the number of patients treated using only this chemotherapy drug</p>	<p>0</p>
<p>Paclitaxel</p>	<p>We have provided the number of patients treated using only this chemotherapy drug</p>	<p>0</p>
<p>Pembrolizumab monotherapy</p>	<p>We have provided the number of patients treated using only this chemotherapy drug</p>	<p>6</p>
<p>Pembrolizumab chemo in combination</p>	<p>We have provided the number of patients treated using only this chemotherapy drug</p>	<p>0</p>
<p>Pemetrexed</p>	<p>We have provided the number of patients treated using only this chemotherapy drug</p>	<p>0</p>

Ramucirumab	We have provided the number of patients treated using only this chemotherapy drug	0
Vinorelbine and cisplatin / carboplatin	We have provided the number of patients treated using this combination of drugs	0
Other active systemic anti-cancer therapy [please state] -	Viorelbine monotherapy	1

2 - In the past 3 months, how many Non Squamous Cell Non-small cell lung cancer (Non SqNSCLC) patients were treated with:	The data provided is from May 2019 - July 2019.	
Afatinib	We have provided the number of patients treated using only this chemotherapy drug	5
Alectinib	We have provided the number of patients treated using only this chemotherapy drug	0
Atezolizumab mono	We have provided the number of patients treated using only this chemotherapy drug	2
Atezolizumab + bevacizumab + carboplatin + paclitaxel	We have provided the number of patients treated using this combination of drugs	0
Bevacizumab	We have provided the number of patients treated using only this chemotherapy drug	0
Brigatinib	We have provided the number of patients treated using only this chemotherapy drug	0
Ceritinib	We have provided the number of patients treated using only this chemotherapy drug	0
Crizotinib	We have provided the number of patients treated using only this chemotherapy drug	1
Dacomitinib	We have provided the number of patients treated using only this chemotherapy drug	0
Docetaxel monotherapy	We have provided the number of patients treated using only this chemotherapy drug	2
Erlotinib	We have provided the number of patients treated using only this chemotherapy drug	5
Gefitinib	We have provided the number of patients treated using only this chemotherapy drug	0
Nintedanib with docetaxel	We have provided the number of patients treated using this combination of drugs	0

Nivolumab	We have provided the number of patients treated using only this chemotherapy drug	0
Osimertinib	We have provided the number of patients treated using only this chemotherapy drug	1
Paclitaxel	We have provided the number of patients treated using only this chemotherapy drug	0
Pembrolizumab monotherapy	We have provided the number of patients treated using only this chemotherapy drug	15
Pembrolizumab chemo in combination	We have provided the number of patients treated using combination of drugs	10
Pemetrexed with carboplatin	We have provided the number of patients treated using this combination of drugs	4
Pemetrexed with cisplatin	We have provided the number of patients treated using only this chemotherapy drug	0
Ramucirumab	We have provided the number of patients treated using only this chemotherapy drug	0
Other active systemic anti-cancer therapy [please state]	Carboplatin Etoposide (CrCl); Cyclizine; Gemcitabine Cisplatin Daypt (NSCLC)	3

3 - In the past 3 months, how many Urothelial cancer patients were treated with	The data provided is from May 2019 - July 2019.	
Atezolizumab	We have provided the number of patients treated using only this chemotherapy drug	0
Carboplatinum in combination with another agent	We have provided the number of patients treated using this combination of drugs	0
Carboplatinum single agent	We have provided the number of patients treated using only this chemotherapy drug	0
Cisplatinum in combination with another agent	We have provided the number of patients treated using this combination of drugs	0
Cisplatinum single agent	We have provided the number of patients treated using only this chemotherapy drug	0
Nivolumab	We have provided the number of patients treated using only this chemotherapy drug	0

Pembrolizumab	We have provided the number of patients treated using only this chemotherapy drug	0
Any other chemo regimen without cisplatin or carboplatin	We have provided the number of patients treated using combination of drugs	0
Other active systemic anti-cancer therapy [please state]	Gemcitabine+Cisplatin	2
