

Request under Freedom of Information Act 2000

Thank you for your request for information which we received on 13 December 2019.

I am pleased to confirm the following.

Please can you tell me how many deaths have been reviewed by the trust or reported to a coroner in the past 10 calendar years where the hospital used a Haemonetics plasma device (any model number) on the patient before they died.

Where the death was investigated please can you send me the report (redacted to remove personal details if necessary) and include the age, gender and diagnosis of the patient. If the death was reported to the coroner, please include a copy of their report.

The Trust does not conduct plasma collection, if such activity has ever occurred it is likely that NHS Blood & Transplant would have been commissioned to undertake such activity.

You are advised that this information is provided in accordance with the Freedom of Information Act 2000 and is for your personal use. Any re-use of this information will be subject to copyright and the Re-Use of Public Sector Information Regulations (1st July 05) and authorisation from Milton Keynes Hospital NHS Foundation Trust will be required. In the event of any re-use, the information must be reproduced accurately and not used in a misleading manner.

If you are unhappy with the information received in response to this request, please address your complaint to the Patient Affairs Office at Milton Keynes Hospital NHS Foundation Trust, Standing Way, Eaglestone, Milton Keynes MK6 5LD. If, after exhausting our internal process, you are still unhappy with the information received, you may write to the Information Commissioner's Office, Wycliffe House, Water Lane, Wilmslow, Cheshire SK9 5AF.

If you need any further assistance, please do not hesitate to contact us at the address above.

Yours sincerely,

Freedom of Information Co-ordinator
For and on behalf of Milton Keynes Hospital NHS Foundation Trust

Any re-use of this information will be subject to the
'Re-use of Public Sector Information Regulations' and best practice.
