739 - FOI - 5067 - Breast and Urothelial cancer chemotherapy

Questions	Performance & Info comments	Answer
1. Within your health trust how many patients are currently [within the past 3 months] being treated with the following for breast cancer?	The data provided is from September 2019 - November 2019.	
Abemaciclib + aromatase inhibitor *	We have provided the number of patients treated using only this chemotherapy drug	0
Abemaciclib + Fulvestrant	We have provided the number of patients treated using only this chemotherapy combination drugs	9
Alpelisib + Fulvestrant	We have provided the number of patients treated using only this chemotherapy combination drugs	0
Atezolizumab	We have provided the number of patients treated using only this chemotherapy drug	0
Bevacizumab	We have provided the number of patients treated using only this chemotherapy drug	0
Eribulin	We have provided the number of patients treated using only this chemotherapy drug	0
Everolimus + Exemestane	We have provided the number of patients treated using only this chemotherapy combination drugs	0
Fulvestrant as a single agent	We have provided the number of patients treated using only this chemotherapy drug	1
Gemcitabine + paclitaxel	We have provided the number of patients treated using only this chemotherapy combination drugs	0
Lapatinib	We have provided the number of patients treated using only this chemotherapy drug	0
Neratinib	We have provided the number of patients treated using only this chemotherapy drug	0
Olaparib	We have provided the number of patients treated using only this chemotherapy drug	0

Palbociclib + aromatase inhibitor*	We have provided the number of patients treated using only this chemotherapy combination drugs	16
Pertuzumab + trastuzumab + docetaxel	We have provided the number of patients treated using only this chemotherapy combination drugs	12
Ribociclib + aromatase inhibitor*	We have provided the number of patients treated using only this chemotherapy combination drugs	0
Ribociclib + Fulvestrant	We have provided the number of patients treated using only this chemotherapy combination drugs	0
Talazoparib	We have provided the number of patients treated using only this chemotherapy drug	0
Herceptin SC	We have provided the number of patients treated using only this chemotherapy drug. Includes all Curative, Adjuvant, Neo-Adjuvant and Palliative intent patients.	4
Herceptin IV	We have provided the number of patients treated using only this chemotherapy drug. Includes all Curative, Adjuvant, Neo-Adjuvant and Palliative intent patients.	3
Transtuzumab biosimilar SC	We have provided the number of patients treated using only this chemotherapy drug	0
Transtuzumab biosimilar IV	We have provided the number of patients treated using only this chemotherapy drug	0
Trastuzumab emtansine	We have provided the number of patients treated using only this chemotherapy combination drugs	3
Other active systemic anti-cancer therapy **		12
2. How many patients are being treated for 2a Neo-adjuvant breast cancer;	The data provided is from September 2019 - November 2019.	
Transtuzumab total SC	We have provided the number of patients treated using only this chemotherapy drug	1
Transtuzumab total IV	We have provided the number of patients treated using only this chemotherapy combination drugs	1
2.b Adjuvant breast cancer;	The data provided is from September 2019 - November 2019.	
Transtuzumab total SC	We have provided the number of patients treated using only this chemotherapy drug	1
Transtuzumab total IV	We have provided the number of patients treated using only this chemotherapy drug	2

3. In the past 3 months, how many Urothelial cancer patients were treated with;	The data provided is from September 2019 - November 2019.	
Atezolizumab	We have provided the number of patients treated using only this chemotherapy drug	
Carboplatinum in combination with another agent	We have provided the number of patients treated using only this chemotherapy combination drugs	1
Carboplatinum single agent	We have provided the number of patients treated using only this chemotherapy drug	0
Cisplatinum in combination with another agent	We have provided the number of patients treated using only this chemotherapy combination drugs	1
Cisplatinum single agent	We have provided the number of patients treated using only this chemotherapy drug	0
Nivolumab	We have provided the number of patients treated using only this chemotherapy drug	0
Pembrolizumab	We have provided the number of patients treated using only this chemotherapy drug	0
