## Coronavirus (COVID 19)

We have made the difficult decision to stop friends and family visiting their loved ones while in the Intensive Care Unit (and the rest of the hospital). While we understand these measures are difficult for many, we must protect our patients, families and staff.

It is important that you know we are here for your relative. We will keep you up to date by telephone or video call as often as possible and ensure your relative is cared for and looked after like our own.
