

## **Request under Freedom of Information Act 2000**

Thank you for your request for information which we received on 10 March 2021.

I am pleased to confirm the following.

### **We would like to know between the dates of Jan 1st 2020 and March 1st 2021 the number of healthcare workers employees within your trust have died due to COVID-19.**

We do not keep 'cause of death' data and so cannot report on it. The only way of knowing what the cause of death is, would be via a copy of the death certificate, which we do not ask for as an organisation and do not hold centrally. The NHS Pensions Team would know primary and secondary cause of death – again this is not information that we would process as a Trust. We would therefore not be able to report on the number of healthcare workers whose cause of death is Covid-19

You are advised that this information is provided in accordance with the Freedom of Information Act 2000 and is for your personal use. Any re-use of this information will be subject to copyright and the Re-Use of Public Sector Information Regulations (1st July 05) and authorisation from Milton Keynes Hospital NHS Foundation Trust will be required. In the event of any re-use, the information must be reproduced accurately and not used in a misleading manner.

If you are unhappy with the information received in response to this request, please address your complaint to the Patient Affairs Office at Milton Keynes Hospital NHS Foundation Trust, Standing Way, Eaglestone, Milton Keynes MK6 5LD. If, after exhausting our internal process, you are still unhappy with the information received, you may write to the Information Commissioner's Office, Wycliffe House, Water Lane, Wilmslow, Cheshire SK9 5AF.

If you need any further assistance, please do not hesitate to contact us at the address above.

Yours sincerely,

Freedom of Information Co-ordinator  
For and on behalf of Milton Keynes Hospital NHS Foundation Trust

Any re-use of this information will be subject to the  
'Re-use of Public Sector Information Regulations' and best practice.
