## Notes to Aid Completion of the Request

- **Please note that not all questions will be applicable to your organisation.**
- Please avoid adding extra text in areas other than the free text boxes provided. Most questions have multiple choice options for ease of answering.
- Boxes with a red outline indicate a dropdown multiple choice question.  
Please click on the box to select your answer. 
- Small boxes in multiple choice questions can be clicked on to mark an 'x' in that answer.

## Definitions

Organisation: The trust or health board that this request was sent to.

Last financial year: 1st April 2020 - 31st March 2021

Mandatory training: "is compulsory training that is determined essential by an organisation for the safe and efficient delivery of services. This type of training is designed to reduce organisational risks and comply with local or national policies and government guidelines."

Taken from: Royal College of Nursing, 2018. *Training: statutory and mandatory* [Online]

*If you have any questions, please do not hesitate to get in touch by email: [ceo@babylifeline.org.uk](mailto:ceo@babylifeline.org.uk)*

## 1. Responders to the Request

1. Could you tell us the job roles of all the individuals who provided information for this request?

Matron  
Maternity Practice Development Team  
Consultant Anaesthetist  
College Tutor  
Obstetric Labour Ward lead  
Clinical Service Unit (CSU) lead for medical staff  
CSU Accountant

2. Please provide us with the details of a main clinical point of contact for this request.

*We will use this information to follow-up on your organisation's response, ask for feedback, and forward the published report of the national response to this survey.*

Name	
Email	
Telephone	
Job Role	Head of Midwifery
Employing organisation	Milton Keynes University Hospital Foundation Trust

3. Around how many babies were delivered by your organisation over the last financial year?  
3001-4000

## 2. The Management of Maternity Services Staff Training

1. Which statement most closely resembles how training for staff working within maternity services is prioritised in your organisation?

- Training priorities for different staff groups (e.g. for midwifery, obstetrics, obstetric anaesthesia, AHPs) are reviewed and decided separately by training leads in each discipline.
- Training priorities for different staff groups are reviewed and decided mostly separately by training leads in each discipline, but with some collaboration between disciplines for specific aspects/topics (e.g. skills drills)
- Training priorities for the whole maternity service are reviewed and decided collaboratively by a multi-professional group which includes midwifery, obstetric and anaesthetic representatives as a minimum.

2. Please provide the role(s)/job title(s) of those involved in reviewing and deciding training priorities for your maternity service.

Head of Midwifery, Practice Development Midwives, Matrons, Consultant Obstetricians, Consultant Neonatologists, Neonatal Nurses, Consultant Anaesthetists

3. What information is considered when deciding training priorities/Training Needs Analyses for maternity services within your organisation? *(Please select all that apply)*

- Serious incidents  Near-misses

- |  |   |
|--|---|
| <input checked="" type="checkbox"/> Complaints                 | <input checked="" type="checkbox"/> National reviews of morbidity and mortality |
| <input type="checkbox"/> Needs identified in local population  | <input type="checkbox"/> Staff feedback/request                                 |
| <input checked="" type="checkbox"/> Maternity Incentive Scheme | <input type="checkbox"/> Local review of outcome data                           |
| <input type="checkbox"/> The Core Competency Framework         | <input checked="" type="checkbox"/> New research/evidence                       |
| <input checked="" type="checkbox"/> National guidance          | <input type="checkbox"/> <b>None of the above</b>                               |
| <input type="checkbox"/> Other (please specify)                |   |

4. How often are training priorities reviewed and updated for your maternity service?  
Once per year

5. Thinking about time allocated for staff to attend training/CPD activities...

a. Did your organisation allocate a percentage uplift specifically for midwives to attend CPD training?  
(*separate to uplift allocated for sickness/other absences*)

- No  
 Yes (*what percentage was used?*)

%

b. Did your organisation allocate a percentage uplift specifically for maternity support workers to attend CPD training? (*separate to uplift allocated for sickness/other absences*)

- No  
 Yes (*what percentage was used?*)

%

c. How many days of study leave were available in your organisation for junior doctors working within obstetrics (at registrar level) to attend CPD training? (*if this varied, please provide an average*)

10 Days per year – obstetricians  
30 days per year of which 15 are used up by weekly in-house training – Obstetric Anaesthetists

d. How many days of study leave were available in your organisation for consultants working within obstetrics to attend CPD training? (*if this varied, please provide an average*)

10 Days per year – obstetricians  
Obstetric anaesthesia lead get 4 hour per week. There is other related SPA for other consultants such as PROMPT facilitators (average 1 hour per week for all obstetric anaesthetic consultants)

e. How many hours per week of *supporting professional activities* (SPA) time was allocated in your organisation to consultants working within obstetrics? (*if this varied, please provide an average*)

4 Hours per week

### 3. The Assessment of Maternity Services Staff Training

1. Is data analysed and course content modified in response to evaluation of training programmes provided to maternity staff at your organisation?

No

Yes *(please give an example below)*

Evaluation forms at the end practice development midwife facilitated study days. Adaptions are made in response to feedback received.

2. At which time points do you collect evaluation data on your in-house training? *(select all that apply)*

Immediately pre-course

Immediately post-course

After a period of time has passed since training *(please specify e.g. 12 weeks)*

3. Do you evaluate whether any training you provide has an impact on clinical outcomes (e.g. post-partum haemorrhage, hypoxic ischaemic encephalopathy)?

No

Yes (please explain how below)

4. Of the training topics provided to maternity staff by your organisation, what percentage do you evaluate using clinical outcomes?

None

5. What are the barriers to fully evaluating the maternity training provided within your organisation?

Poor staffing in the practice education team

Lack of guidance/information on assessment methodologies

No barriers identified

Other (please specify)

#### 4. The Delivery of Maternity Services Staff Training

1. Do you involve other specialities in your training by either involving them in delivery of training, or inviting them to attend? *e.g. Involving paramedics in community skills & drills training, or critical care staff in training on management of the acutely unwell woman.*

No

Yes (please give brief examples below)

Anaesthetists in PROMPT, skills drills and maternity protected training (epidurals and management)  
 Theatre staff in PROMPT  
 Neonatologists in ATAIN study days  
 Neonatal Nurses/ANNP's – ATAIN study days

2. Have you identified barriers to providing multi-professional training? *i.e. different professionals (obstetricians, midwives, obstetric anaesthetists, etc) in the maternity team training together*

No

Yes (please give brief examples below)

Occasional difficulties in releasing some specialities from clinical activity due to absences/vacancies/service pressure

3. Do you tailor your training to allow staff to upskill in topics relating to the specific characteristics of your local pregnant population? *This involves knowing the local demographic and possible vulnerabilities (e.g. aging population, women with multiple disadvantages, specific diseases).*

No

Yes (please give brief examples below)

4. Are staff qualified in examination of the newborn (NIPE) required to attend refresher training?

Yes       No

5. Did you use external providers to deliver any of the training provided to your maternity staff in the last financial year?

No

Yes (please list the providers used below)

Fetal Monitoring study day

## 5. Attendance at Maternity Services Staff Training

1. With regard to mandatory training, do you audit how often maternity staff attend updates within the time specified by your organisation's guidelines?

Yes       No

*If no, please skip to Section 6 "Training Budgets"*

2. When audited, what was the rate of timely attendance for all staff at mandatory training/updates?

86-90%

3. What was the rate of timely attendance for midwives?

91-95%

4. What was the rate of timely attendance for consultant obstetricians?

91-95%

5. What was the rate of timely attendance for junior doctors working in obstetrics?

86-90%

6. What was the rate of timely attendance for consultant obstetric anaesthetists?

86-90%

7. What was the rate of timely attendance for junior doctors working in obstetric anaesthesia?

Not audited

8. What was the rate of timely attendance for other staff groups (e.g. ODPs, MSWs)?

76-85%

## 6. Training Budgets

1. What was the amount (£) spent on direct costs of maternity training provision over the past financial year by your organisation (from any source)? *This might include venue costs, costs of paying external providers, etc.*

£7,416

2. Did your organisation budget for backfill of those staff attending training?

No

Yes (please specify how much was spent on this over the past financial year)

£

3. Thinking about the source of these funds, what percentage was provided by each of the following:

Allocated by the organisation	%
Health Education England	%
Hospital Charity Funds	%
Other (please specify)	% from

4. Within your organisation, do you provide an individual allocated budget for professionals in the following groups to attend CPD training?

a. An individual CPD budget per midwife?

Yes  No

b. An individual CPD budget per junior doctor working within maternity services?

Yes  No

c. An individual CPD budget per consultant working within maternity services?

Yes  No

d. Do any other staff groups have an individual CPD budget allocated?

No

Yes (please specify which)

## 7. Training Topics

The following sections will ask you to provide details about which topics of training were provided to maternity staff at your organisation over the past financial year. We will also ask about the content and format of training provided.

Your answers should include training considered mandatory; training provided but considered non-mandatory; training provided in-house; training which was commissioned by the organisation but provided by external agencies and also training provided via any medium (e.g. online or workshop based).

When answering, please include training provided to **any** member of clinical maternity staff.

We will be asking you about training provided under the following topic headings:

1	<b>Emergency skills &amp; drills:</b> Including shoulder dystocia, cord prolapse, eclampsia, hypertensive crisis, antepartum & postpartum haemorrhage, vaginal breech birth, uterine inversion, uterine rupture, amniotic fluid embolism, maternal collapse, water birth/pool drill, covid-19 positive emergency, impacted fetal head, anaesthetic related emergency and intrapartum deinfibulation
2	<b>Fetal monitoring:</b> Including Continuous Electronic Fetal Monitoring (CTG) and Intermittent Auscultation
3	<b>Interpersonal and human factors skills:</b> Including communication, situational awareness, communication/handover tools, cognitive bias, impact of stress/fatigue/workload and escalation

4	<a href="#">Early recognition &amp; management of the acutely unwell woman:</a> <i>Including early recognition, enhanced maternal care, maternal critical care, and assessment and management of a covid-19 positive woman</i>
5	<a href="#">Sepsis:</a> <i>Including recognition and management of maternal sepsis and recognition and management of neonatal sepsis</i>
6	<a href="#">Co-morbidities in pregnancy/management of high-risk pregnancies:</a> <i>Including hypertension, diabetes, obesity/women post bariatric surgery, thromboembolism, cardiovascular disease, epilepsy, advanced maternal age, teenage pregnancy, twin pregnancy, stroke, malignancy</i>
7	<a href="#">Adult/maternal life support</a>
8	<a href="#">Newborn life support</a>
9	<a href="#">Learning from adverse events:</a> <i>Including incident reporting, learning from adverse events, candour, and family engagement</i>
10	<a href="#">Informed consent</a>
11	<a href="#">Other professional issues:</a> <i>Including documentation of care, raising concerns/whistleblowing, and personalised care</i>
12	<a href="#">Reducing smoking in pregnancy</a>
13	<a href="#">Screening for fetal growth:</a> <i>Including measurement of symphysis fundal height (SFH), plotting and interpretation of SFH using local charts and when to refer</i>
14	<a href="#">Preterm birth:</a> <i>Including recognition of women at risk, appropriate referral/preventative strategies, and optimisation of perinatal care for the extremely preterm infant</i>
15	<a href="#">Management of reduced fetal movement</a>
16	<a href="#">Ongoing antenatal and peripartum risk assessment:</a> <i>Including antenatal &amp; intrapartum risk assessment, planning place of birth, appropriate transfer, appropriate referral/shared-care, and reducing risk of transmission of serious infection to the fetus/neonate</i>
17	<a href="#">Assessment, management and prevention of perineal trauma:</a> <i>Including management of first, second, third and fourth degree tears, and prevention</i>
18	<a href="#">Perinatal mental health</a>
19	<a href="#">Bereavement care</a>
20	<a href="#">Newborn care:</a> <i>Including neonatal hypoglycaemia, neonatal jaundice, thermoregulation, procedures and positioning for safe skin-to-skin care, newborn feeding, and examination of the newborn</i>
21	<a href="#">Care of women following operative interventions</a>
22	<a href="#">Induction and augmentation of labour</a>
23	<a href="#">Instrumental and assisted delivery:</a> <i>Including forceps delivery, ventouse delivery, and manual rotation</i>
24	<a href="#">Pain relief during labour and birth:</a> <i>Including safety, choice, access, and consent, and care of epidurals</i>
25	<a href="#">Cultural competency</a>
26	<a href="#">Safeguarding adults:</a> <i>Including handling disclosure and domestic and sexual violence</i>
27	<a href="#">Resilience/wellbeing for healthcare professionals</a>
28	<a href="#">Promoting normality in childbirth</a>
29	<a href="#">Complementary therapies</a>
30	<a href="#">Family planning and contraception</a>
31	<a href="#">Safeguarding children and young people</a>
32	<a href="#">Substance misuse</a>
33	<a href="#">Other maternity training</a>

8. Thinking about training offered to maternity staff by your organisation over the last financial year...

Topic 1

1a. Did your organisation offer **emergency skills & drills** training to maternity staff in the last financial year? *Including shoulder dystocia, cord prolapse, eclampsia, hypertensive crisis, antepartum & postpartum haemorrhage, vaginal breech birth, uterine inversion, uterine rupture, amniotic fluid embolism, maternal collapse, water birth/pool drill, covid-19 positive emergency, impacted fetal head, anaesthetic related emergency and intrapartum deinfibulation.*

- Yes, and it was mandatory training for some/all staff  
 Yes, but it was not part of mandatory training  
 No, this topic was not offered to staff by the organisation

*If you did not provide this training, please skip to Section 9 (Topic 2).*

1b. What specific training was provided as part of this topic? *(Please click all that apply)*

- |  |   |
|--|---|
| <input checked="" type="checkbox"/> Shoulder dystocia      | <input type="checkbox"/> Amniotic fluid embolism                                      |
| <input checked="" type="checkbox"/> Cord prolapse          | <input checked="" type="checkbox"/> Maternal collapse                                 |
| <input checked="" type="checkbox"/> Eclampsia              | <input type="checkbox"/> Water birth/pool drill                                       |

| <input checked="" type="checkbox"/> Postpartum haemorrhage | <input type="checkbox"/> Intrapartum deinfibulation                                   |
| <input checked="" type="checkbox"/> Vaginal breech birth   | <input checked="" type="checkbox"/> Maternal collapse due to anaesthetic intervention |
| <input type="checkbox"/> Uterine inversion                 |   |
| <input type="checkbox"/> Uterine rupture                   |   |
| <input type="checkbox"/> Other <i>(please specify)</i>     |   |

1c. Did your organisation provide **emergency skills & drills** training which was specific to the pre-hospital setting (i.e. specifically for community midwives)?

- Yes       No

1d. Did training in this topic include consideration of the impact of 'human factors' in emergency scenarios (e.g. communication/situational awareness)?

- Yes       No

1e. Did **emergency skills & drills** training include simulation of unit-specific emergency escalation/communication protocols?

- Yes       No

1f. Do you use real-life scenarios and cases in your **emergency skills & drills** training? *(e.g. MBRRACE-UK vignettes)*

- Yes       No

1g. Did training provided include developing an awareness of indications and use for cell salvage?

- Yes       No

1h. Does training in **emergency skills & drills** include scenarios involving women whose first language is not English?

Yes  No

1i. Did training in **emergency skills & drills** include identification of clinical signs in people with black and brown skin?

Yes  No

*If you provided this topic, but it was not part of mandatory training, please skip to question 5 in this section.*

2. If you indicated that this training was considered mandatory, which professional groups were required to attend?

Midwives	Obstetricians	Obstetric Anaesthetists	Maternity Support Workers	Other maternity allied health professionals
<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

3. If mandatory, how often is it required that relevant staff complete this training?

Yearly

4. If mandatory, what was the minimum duration of training mandated for relevant staff on this topic?

*(number of hours attended for training to be considered complete)*

More than 7 hours - 8 hours

5. If more than one professional group attended this training, did they attend it together?

Yes, multi-professional training was provided on this topic

6. Who delivered the training on this topic for staff at your organisation, over the last financial year?

Providers directly employed by the Trust (In-House)

7. How was this training delivered? *(Please select all that apply)*

<u>Live Training</u>	Face-to-Face	Online

11. Thinking about training offered to maternity staff by your organisation over the last financial year...

Topic 4

1a. Did your organisation offer training on [early recognition and management of the acutely unwell woman](#) to maternity staff in the last financial year? *Including early recognition, enhanced maternal care, maternal critical care, and assessment and management of a covid-19 positive woman*

- Yes, and it was mandatory training for some/all staff
- Yes, but it was not part of mandatory training
- No, this topic was not offered to staff by the organisation

*If you did not provide this training, please skip to Section 12 (Topic 5).*

1b. What specific training was provided as part of this topic? *(Please click all that apply)*

- Early recognition of the acutely unwell woman
- Enhanced Maternal Care
- Maternal Critical Care, including:
  - the use of maternal critical care observation charts
  - structured review proformas
  - deterioration & escalation thresholds
  - timing of birth
  - postnatal care
- Assessment and management of a covid-19 positive woman
- Other *(please specify)*

1c. Did training in this topic include appropriate use of maternal early warning systems (MEOWS or similar)?

- Yes       No

*If you provided this topic, but it was not part of mandatory training, please skip to question 5 in this section.*

2. If you indicated that this training was considered mandatory, which professional groups were required to attend?

Midwives	Obstetricians	Obstetric Anaesthetists	Maternity Support Workers	Other maternity allied health professionals

20. Thinking about training offered to maternity staff by your organisation over the last financial year...

Topic 13

1a. Did your organisation offer training on [screening for fetal growth](#) to maternity staff in the last financial year? *Including measurement of symphysis fundal height (SFH), plotting and interpretation of SFH using local charts and when to refer*

- Yes, and it was mandatory training for some/all staff  
 Yes, but it was not part of mandatory training  
 No, this topic was not offered to staff by the organisation

*If you did not provide this training, please skip to Section 21 (Topic 14).*

1b. If you indicated that training on [screening for fetal growth](#) was provided by your organisation, what specific training was provided as part of this topic? *(please tick all those provided)*

- Measurement of symphysis fundal height  
 Plotting and interpretation of symphysis fundal height using local charts  
 When to refer  
 Other *(please specify)*

1c. Did relevant staff receive training on ultrasound scanning for fetal growth and uterine artery doppler measurement?

Yes  No

*If you provided this topic, but it was not part of mandatory training, please skip to question 5 in this section.*

2. If you indicated that this training was considered mandatory, which professional groups were required to attend?

Midwives	Obstetricians	Obstetric Anaesthetists	Maternity Support Workers	Other maternity allied health professionals
<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

3. If mandatory, how often is it required that relevant staff complete this training?

Yearly

4. If mandatory, what was the minimum duration of training mandated for relevant staff on this topic?

*(number of hours attended for training to be considered complete)*

More than 4 hours - 5 hours

5. If more than one professional group attended this training, did they attend it together?

No, different professional groups attended training separately

6. Who delivered the training on this topic for staff at your organisation, over the last financial year?

External Providers (including external eLearning packages)

7. How was this training delivered? *(Please select all that apply)*

<u>Live Training</u>	Face-to-Face	Online
Live Lecture-Based	<input type="checkbox"/>	<input type="checkbox"/>

Other *(please specify)*

8a. At your organisation, was **competency** in processes for screening for fetal growth assessed? *(as relevant to staff role, including measurement of SFH, use and interpretation of charts, ultrasound scanning for growth and uterine artery doppler measurement)*

No

Yes *(please specify what was assessed and how it was assessed)*

Assessment as part of the e-learning package

8b. If competency was assessed and not passed, were relevant clinical duties removed until competent?

Yes

No

8c. Did you evaluate the training delivered on this topic?

Yes

No

9. If you have anything you would like to add which is relevant to this topic, please comment below

21. Thinking about training offered to maternity staff by your organisation over the last financial year...

Topic 14

1a. Did your organisation offer training on **preterm birth** to maternity staff in the last financial year?

*Including recognition of women at risk, appropriate referral/preventative strategies, and optimisation of perinatal care for the extremely preterm infant*

Yes, and it was mandatory training for some/all staff

Yes, but it was not part of mandatory training

No, this topic was not offered to staff by the organisation

*If you did not provide this training, please skip to Section 22 (Topic 15).*

1b. If you indicated that training on **preterm birth** was provided by your organisation, what specific training was provided as part of this topic? *(please tick all those provided)*

Recognition of women at high risk of preterm birth

Appropriate referral of at-risk women to specialist services and/or preventative strategies

Optimising perinatal care for the extremely preterm infant (as per BAPM framework for practice)

Training for relevant staff in transvaginal US cervix scanning and interpretation in **asymptomatic** women at high risk of preterm birth.

Training for relevant staff in the application and interpretation of transvaginal US cervix scanning **and/or** other near-patient tests (such as fibronectin) in **symptomatic** women at high risk of preterm birth.

Training for relevant staff on strategies for preventing preterm birth (such as cerclage, arabin pessary insertion, or use of vaginal progesterone administration).

Other training on preterm birth *(please specify)*

1c. Did maternity staff have the opportunity to attend multidisciplinary training on optimising perinatal care for the extremely preterm infant with the neonatal team?

Yes       No

*If you provided this topic, but it was not part of mandatory training, please skip to question 5 in this section.*

2. If you indicated that training on **preterm birth** was considered mandatory, which professional groups were required to attend sessions provided?

	Midwives	Obstetricians	Obstetric Anaesthetists	Maternity Support Workers	Other maternity allied health professionals

23. Thinking about training offered to maternity staff by your organisation over the last financial year...

Topic 16

- 1a. Did your organisation offer training to maternity staff on [ongoing antenatal and peripartum risk assessment](#) in the last financial year? *Including antenatal & intrapartum risk assessment, planning place of birth, appropriate transfer, appropriate referral/shared-care, and reducing risk of transmission of serious infection to the fetus/neonate*

- Yes, and it was mandatory training for some/all staff  
 Yes, but it was not part of mandatory training  
 No, this topic was not offered to staff by the organisation

*If you did not provide this training, please skip to Section 24 (Topic 17).*

- 1b. What specific training was provided to staff at your organisation as part of this topic? *(please tick all those provided)*

- Antenatal Risk Assessment  
 Planning Place of Birth  
 Intrapartum Risk Assessment  
 Appropriate Transfer  
 Appropriate/timely referral to other specialities and shared-care *(e.g. neurology input for women with epilepsy).*

- Did training include risk-factors for transmission (and strategies for reducing risk) of serious infection to the fetus/neonate during pregnancy, birth, and postnatally?

- Yes, general risk factors  
 Yes, specific information about Group-B Streptococcus (GBS)  
 Yes, specific information about Herpes Simplex Virus (HSV)  
 Yes, specific information about Cytomegalovirus (CMV)

- Other training relating to ongoing risk assessment or specific information about other infections not mentioned above *(please specify)*

*If you provided this topic, but it was not part of mandatory training, please skip to please skip to Section 24 (Topic 17).*

2. If you indicated that training on [ongoing antenatal and peripartum risk assessment](#) was considered mandatory, which professional groups were required to attend sessions provided?

24. Thinking about training offered to maternity staff by your organisation over the last financial year...

Topic 17

- 1a. Did your organisation offer training on [assessment, management and prevention of perineal trauma](#) to maternity staff in the last financial year? *Including management of first, second, third and fourth degree tears, and prevention*

- Yes, and it was mandatory training for some/all staff  
 Yes, but it was not part of mandatory training  
 No, this topic was not offered to staff by the organisation

*If you did not provide this training, please skip to Section 25 (Topic 18).*

- 1b. What specific training was provided to staff at your organisation as part of this topic? *(please tick all those provided)*

- Prevention of perineal trauma  
 Assessment and management of first degree tears  
 Assessment and management of second degree tears  
 Assessment and management of third degree tears  
 Assessment and management of fourth degree tears

*If you provided this topic, but it was not part of mandatory training, please skip to question 5 in this section.*

2. If you indicated that this training was considered mandatory, which professional groups were required to attend?

Midwives	Obstetricians	Obstetric Anaesthetists	Maternity Support Workers	Other maternity allied health professionals
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

3. If mandatory, how often is it required that relevant staff complete this training?

4. If mandatory, what was the minimum duration of training mandated for relevant staff on this topic?

*(number of hours attended for training to be considered complete)*

5. If more than one professional group attended this training, did they attend it together?

6. Who delivered the training on this topic for staff at your organisation, over the last financial year?

7. How was this training delivered? *(Please select all that apply)*

<u>Live Training</u>	Face-to-Face	Online
Live Lecture-Based	<input type="checkbox"/>	<input type="checkbox"/>
Interactive Workshop-Based	<input type="checkbox"/>	<input type="checkbox"/>
Case-review sessions	<input type="checkbox"/>	<input type="checkbox"/>
<b><u>Simulation Training</u></b>

Other *(please specify)*

8. Did you evaluate the training delivered on this topic?

Yes       No

9. If you have anything you would like to add which is relevant to this topic, please comment below

27. Thinking about training offered to maternity staff by your organisation over the last financial year...

Topic 20

1a. Did your organisation offer training on [newborn care](#) to maternity staff in the last financial year?

*Including neonatal hypoglycaemia, neonatal jaundice, thermoregulation, procedures and positioning for safe skin-to-skin care, newborn feeding*

- Yes, and it was mandatory training for some/all staff
- Yes, but it was not part of mandatory training
- No, this topic was not offered to staff by the organisation

*If you did not provide this training, please skip to Section 28 (Topic 21).*

1b. What specific training was provided as part of this topic? *(Please click all that apply)*

- Neonatal hypoglycaemia
- Neonatal jaundice
- Thermoregulation
- Other *(please specify)*
- Newborn feeding
- Procedures and positioning for safe skin-to-skin care

Newborn Feeding, procedures and positioning for safe skin-to-skin care is mandatory  
Neonatal hypoglycaemia, jaundice and thermoregulation was provided and not part of mandatory training

1c. Did training in this topic include appropriate use of neonatal early warning systems?

- Yes
- No

*If you provided this topic, but it was not part of mandatory training, please skip to question 5 in this section.*

2. If you indicated that this training was considered mandatory, which professional groups were required to attend?

Midwives	Obstetricians	Obstetric Anaesthetists	Maternity Support Workers	Other maternity allied health professionals
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

3. If mandatory, how often is it required that relevant staff complete this training?

Yearly

4. If mandatory, what was the minimum duration of training mandated for relevant staff on this topic?

*(number of hours attended for training to be considered complete)*

1 hour - 2 hours

5. If more than one professional group attended this training, did they attend it together?

Yes, multi-professional training was provided on this topic

6. Who delivered the training on this topic for staff at your organisation, over the last financial year?

Providers directly employed by the Trust (In-House)

7. How was this training delivered? *(Please select all that apply)*

Topic 23

1a. Did your organisation offer training on [instrumental and assisted delivery](#) to maternity staff in the last financial year? *Including forceps delivery, ventouse delivery, and manual rotation*

- Yes, and it was mandatory training for some/all staff
- Yes, but it was not part of mandatory training
- No, this topic was not offered to staff by the organisation

*If you did not provide this training, please skip to Section 31 (Topic 24).*

1b. What specific training was provided as part of this topic? *(Please click all that apply)*

- Forceps Delivery
- Rotational Forceps
- Other *(please specify)*
- Ventouse Delivery
- Manual Rotation

*If you provided this topic, but it was not part of mandatory training, please skip to Section 31 (Topic 24).*

2. If you indicated that this training was considered mandatory, which professional groups were required to attend?

Midwives	Obstetricians	Obstetric Anaesthetists	Maternity Support Workers	Other maternity allied health professionals
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

### 31. Thinking about training offered to maternity staff by your organisation over the last financial year...

#### Topic 24

- 1a. Did your organisation offer training on [pain relief during labour and birth](#) to maternity staff in the last financial year? *Including safety, choice, access, and consent, and care of epidurals*

- Yes, and it was mandatory training for some/all staff  
 Yes, but it was not part of mandatory training  
 No, this topic was not offered to staff by the organisation

*If you did not provide this training, please skip to Section 32 (Topic 25).*

- 1b. What specific training was provided as part of this topic? *(Please click all that apply)*

- Safety  
 Choice, access, and consent  
 Care of epidurals  
 Other *(please specify)*

*If you provided this topic, but it was not part of mandatory training, please skip to Section 32 (Topic 25).*

2. If you indicated that this training was considered mandatory, which professional groups were required to attend?

Midwives	Obstetricians	Obstetric Anaesthetists	Maternity Support Workers	Other maternity allied health professionals
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

32. Thinking about training offered to maternity staff by your organisation over the last financial year...

Topic 25

1. Did your organisation offer training on [cultural competency](#) to maternity staff in the last financial year?

- Yes, and it was mandatory training for some/all staff
- Yes, but it was not part of mandatory training
- No, this topic was not offered to staff by the organisation

*If you did not provide this topic, or it was not part of mandatory training, please skip to Section 33 (Topic 26).*

2. If you indicated that this training was considered mandatory, which professional groups were required to attend?

Midwives	Obstetricians	Obstetric Anaesthetists	Maternity Support Workers	Other maternity allied health professionals
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

33. Thinking about training offered to maternity staff by your organisation over the last financial year...

Topic 26

1a. Did your organisation offer training on [safeguarding adults](#) to maternity staff in the last financial year?

*Including handling disclosure and domestic and sexual violence*

- Yes, and it was mandatory training for some/all staff
- Yes, but it was not part of mandatory training
- No, this topic was not offered to staff by the organisation

*If you did not provide this training, please skip to Section 34.*

1b. What specific training was provided as part of this topic? *(Please click all that apply)*

- Handling disclosure
- Female genital mutilation
- Domestic and sexual violence

34. Thinking about training offered to maternity staff by your organisation over the last financial year...

Did your organisation provide training to maternity staff on the following topics, in the last financial year?

		Provided and mandatory training for some/all staff	Provided but not part of mandatory training	This topic was not offered
Topic 27	Resilience/wellbeing for healthcare professionals	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Topic 28	Promoting normality in childbirth	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Topic 29	Complementary therapies	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Topic 30	Family planning and contraception	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Topic 31	Safeguarding children and young people	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Topic 32	Substance misuse	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

35.

Topic 33

Did your organisation offer any other training in the last financial year which is provided specifically to staff working in maternity services?

No

Yes (please specify)

**36. Learning During a Pandemic**

1a. Did you provide tailored training to staff who, due to the pandemic, were redeployed to an area within maternity services that differed to their usual role, during the past financial year?

Yes  No

1b. If yes, did you assess whether these staff were competent in necessary skills prior to them practicing independently in a new area?

No

Yes (*how?*)

2a. Have you/do you intend to provide tailored training to staff who, due to the pandemic, have been unable to fulfil their usual role due to a period of shielding, and have/are planning to return to their usual place of work?

Yes  No

2b. If yes, did you/do you plan to assess whether these staff are competent in necessary skills prior to them practicing independently on their return?

No

Yes (*how?*)

Through mandatory training

3a. Did this year's Covid-19 pandemic cause you to provide any other training that was additional to what you had planned, specifically delivered to help maternity staff meet the potential additional needs of/risks to women during the pandemic?

No

Yes (*please specify*)

Emergency caesarean section pathway for women with Covid 19  
Putting on and removing PPE correctly

3b. Did this year's Covid-19 pandemic cause you to adapt the training you would have otherwise provided in any other way? (*this includes method of delivery, duration, evaluation etc.*)

No

Yes (*please describe the adaptations that were made*)

Some classroom based training was adapted so it could be provided as on-line training or within a training session on Microsoft Teams

3c. If you adapted the training offered, are there any changes that you plan to retain when prioritising and delivering training in the future (i.e. when pandemic restrictions are no longer in place)?

No

Yes (*please specify what they are and the rationale for retaining these changes*)

Some will continue on-line

### 37. Final Thoughts

1. In your organisation, have you identified barriers to providing training? If so, what were they? *(Please select all that apply)*

- |  |  |
|--|--|
| <input type="checkbox"/> Staffing                      | <input checked="" type="checkbox"/> Facilitator availability   |
| <input type="checkbox"/> Financial                     | <input type="checkbox"/> Location of relevant training courses |
| <input type="checkbox"/> Equipment                     | <input checked="" type="checkbox"/> The COVID-19 pandemic      |
| <input checked="" type="checkbox"/> Venue restrictions | <input type="checkbox"/> No barriers identified                |
| <input checked="" type="checkbox"/> Venue availability |  |
| <input type="checkbox"/> Other <i>(please specify)</i> |  |

2. In your organisation, have you identified barriers to staff attendance at scheduled training? If so, what were they? *(Please select all that apply)*

- |  |   |
|--|---|
| <input type="checkbox"/> Staffing                      | <input type="checkbox"/> Communication                    |
| <input checked="" type="checkbox"/> Sickness           | <input checked="" type="checkbox"/> The COVID-19 pandemic |
| <input type="checkbox"/> No barriers identified        |   |
| <input type="checkbox"/> Other <i>(please specify)</i> |   |

3. About how long did it take to compile your organisation's responses to questions in this survey?  
3-5 hours

4. Do you have any further comments, questions or concerns?

There were a number of subjects, training sessions and skills drills previously provided that we were not able to provide in the past financial year due to COVID-19 restrictions
