FOI - 7523 - Patients Treated in the Last Four Months for Specific Conditions

Questions	Notes/Comments	Response				
		Rheumatoid Arthritis	Axial Spondyloarthritis	Psoriatic arthritis	Psoriasis	Hidradenitis Suppurativa
<p><b>In total, over the past 4 months, how many patients have been treated for the following diseases (Rheumatoid arthritis, Axial Spondyloarthritis, Psoriatic arthritis, Psoriasis, hidradenitis suppurativa)</b></p>	<p>Included are the number of patients that were discharged from MKUH between 1st January 2022 and 30th April 2022, where the patient had a primary diagnosis of one of the below codes at any point during their inpatient spell. These codes have been categorised to show which codes apply to which diagnosis.</p> <p>Please note - this is the total number of distinct patients. If a patient has more than one admission that fulfils the above criteria, they have only been counted once. We have provided data up to April as this is the last month's data that has been clinically coded (at the time of drawing the data).</p> <p>We are only able to search for these diagnosis codes during inpatient spells, so only patients that had these diagnoses coded to an inpatient admission have been included.</p>	21	5	2	2	2

ICD10 Diagnosis Code & Description	Category
L400: Psoriasis vulgaris	Psoriasis
L401: Generalized pustular psoriasis	Psoriasis
L403: Pustulosis palmaris et plantaris	Psoriasis
