

Date of Report: 18/11/2022

FOI - 7756 - Hip Replacements

Questions	Notes/Comments	Response					2022 (as of the 1st Jan 2022- 30th September 2022)
		2017	2018	2019	2020	2021	
<p>1. Average length of inpatient stay of Primary hip replacement patients post surgery?</p>	<p>Detailed is the average length of stay from the procedure date to discharge date (in days), per year, for inpatients who had an elective primary hip replacement procedure at MKUH between the 1st January 2017 and the 30th September 2022, where any of the following OPCS Procedure Codes were coded to the inpatient spell:</p> <p><i>W371- Primary total prosthetic replacement of hip joint using cement</i> <i>W381- Primary total prosthetic replacement of hip joint not using cement</i> <i>W391- Primary total prosthetic replacement of hip joint NEC</i> <i>W931- Primary hybrid prosthetic replacement of hip joint using cemented acetabular component</i> <i>W941- Primary hybrid prosthetic replacement of hip joint using cemented femoral component</i> <i>W951- Primary hybrid prosthetic replacement of hip joint using cement NEC</i></p> <p>Please note that a small number of patients with a longer than expected length of stay can influence the average with a relatively low volume of patients overall. This may be the case in relation to patients with more complex medical issues or complications post op resulting in a longer period of hospital care.</p>	3 Days	4 Days	3 Days	3 Days	2 Days	5 Days
<p>2. Number of ITU admissions post primary hip replacement?</p>	<p>Detailed are the number of inpatients who had an elective primary hip replacement procedure, per year, at MKUH between the 1st January 2017 and the 30th September 2022, where any of the following OPCS Procedure Codes were coded to the inpatient spell:</p> <p><i>W371- Primary total prosthetic replacement of hip joint using cement</i> <i>W381- Primary total prosthetic replacement of hip joint not using cement</i> <i>W391- Primary total prosthetic replacement of hip joint NEC</i> <i>W931- Primary hybrid prosthetic replacement of hip joint using cemented acetabular component</i> <i>W941- Primary hybrid prosthetic replacement of hip joint using cemented femoral component</i> <i>W951- Primary hybrid prosthetic replacement of hip joint using cement NEC</i></p> <p>and who were transferred to an ICU ward after their hip replacement procedure during the same inpatient spell.</p>	0 Patients	4 Patients	1 Patient	0 Patients	1 Patient	1 Patient
