

Radiological examination in females who are of childbearing age (IRMER 2017)

We have been requested to perform a Radiological examination of you.

There is a small possibility that in certain circumstances x-rays may be harmful to the unborn child.

In order to avoid this situation this examination should be performed within 10 days of the start of your last menstrual period.

Due to your specific circumstances, you state that there is no possibility of you being pregnant and will sign and date below to confirm this.

I(please print name)

Confirm that there is no possibility of me being pregnant.
